"Inspiration at Sea"
Mexico

April 2008

Dear Fellow Homeowners:

I'm on an extended trip, in Mexico, sailing. My ocean view home in White Rock BC, Canada, needed some attention. My good neighbour, Grant Skrypnyk, of "[Home Menders](#)", recommended Hay's Roof Management Ltd. to me. Grant has done business with and recommends them.

I contacted Hay's through the internet. All our communication and business has been done by email. It's been a relief to me to be kept in close communication and be sent before and after photos of the progress. They are such a big part of the long distance communication. I thank Gregg for taking that extra important step.

Maintaining a home from a distance has it's difficulties, to be sure, but finding a company with skill and integrity, with people who still know the meaning of trust and service, makes all the difference.

I've found Hay's Roof Management Ltd. to be such a company. I can say that my experience with the people behind ROTban has been exemplary, I trust their reputation and recommendations. One more very satisfied customer from afar. I can continue cruising the Sea knowing my home is well covered.

Yours truly,

Vicky Plett
